

Capture high volumes of information to use it and store it.

CapturePoint

Convert high volumes of paper-based information in your business to a central location in an electronic format. Gain instant access to your information and use it in your business for:

- Proof of delivery
- Invoices/purchase orders
- CRM System
- Back scanning
- Stock control forms
- Barcode recognition
- Application forms
- Timesheets
- Accounting system
- Document archiving

SIMPLY FIND IT FAST

CapturePoint

Capture and automatically index large volumes of paper-based and electronic information in your business - for secure storage and instant retrieval. Use built-in reporting to monitor the "human" element of the data capture process.

SYSTEM REQUIREMENTS

Minimum System Requirements

- Processor: Pentium® II 300Mhz
- RAM: 64MB
- Free Disk Space: 100MB
- Operating System: Windows 98® (IE5), Me, NT (with SP4, IE5), Windows 2000®
- Screen and resolutions: 15" or 17" & 1024 x 768
- CD ROM required: Yes
- Network Card: 10/100/PCI
- Dedicated Server: Optional but recommended with 600MB free space
- Scanner: ISIS Compatible (any level)
- Mouse: Microsoft or compatible pointing device

Recommended System Requirements

- Processor: Pentium® II 500Mhz
- RAM: 128MB
- Free Disk Space: 100MB
- Operating System: Me, NT (with SP4, IE5), Windows 2000®
- Screen and resolutions: 19" & 1024 x 768
- CD ROM required: Yes
- Network Card: 100/PCI
- Dedicated Server: Yes with 1GB free space
- Scanner: ISIS Compatible (level 2)
- Mouse: Microsoft or compatible pointing device

Additional Items or Services for Optimal Usage

- An ISIS compatible scanner is required to capture paper. Low range to high volume production scanners are supported.
- A minimum 20ppm scanner is recommended.
- Colour scanning is not supported.
- Scanner (ISIS) Drivers are not included.
- Note that many ISIS compatible scanners require the use of a SCSI interface card and have a SCSI cable, these items are not included.
- ManageEzy and ManagePoint export requires that ManageEzy and ManagePoint are installed.
- Database export functionality requires that a database system is available for manipulating the data.

FEATURE

Scan and automatically index using handprint, barcode and electronic print recognition.

Automated forms processing (such as invoices and proof of deliveries), document indexing, OCR/ICR/OMR/Barcode recognition.

Network Configuration.

Minimum of 2000 pages per day can be captured.

Flexible dynamic management reporting including operator statistics, cost and client/job reporting.

Full process workflow management - multi-station, quality control, dynamic network load balancing.

Supports all ISIS compatible scanners from level 1 through to level 4.

Scalable.

Powerful and seamless exporting functionality.

Automated data entry.

BENEFIT

Increase efficiency with minimal manual data entry.

Access information from your paper-based forms immediately.

Capture information from multiple stations to increase throughput.

High volumes of information can be captured.

Plan budgets and timelines more effectively and accurately monitor performance.

Manage the workflow process of your office and complete multiple tasks at the same time.

CapturePoint is suitable for any ISIS scanner.

Capturepoint can grow as your business expands.

Once captured, information is instantly available throughout the Redmap Manage suite of solutions and other management applications.

Decrease human processing errors.

CAPTURE, MANAGE, PROTECT

Redmap's Capture, Manage and Protect solutions have been designed to work in a stand-alone environment or integrated with each other for optimal business benefits.

Capture - Redmap's Capture solutions allow businesses to systematically capture the information that is vital to their business.

Manage - Redmap's Manage solutions allow electronically stored information to be effectively managed from one central location, regardless of the file format.

Protect - Redmap's Protect solutions automate the data back up process to minimise the drain on IT or business resources.
